WORK EXPERIENCE

Fast Enterprises, LLC

Springfield, IL > Wellington, New Zealand > Sacramento, CA

Implementation Consultant

October 2015 – April 2018

- Developed and configured in VB.NET and SQL Server on a back-end/front-end app stack for IL Department of Revenue, New Zealand Internal Revenue Department, and CA Employment Development Department.
- Consulted with 9 department heads to resolve over 15 issues in the software every month and optimized infrastructure using an end-to-end agile process.
- Discovered and repaired non-robust code, utilized SQL to data cleanse the database, and prevented a loss of \$50,000.

One Tea USA

Fremont, CA

Lead Barista

June 2014 – September 2015

- Cofounded a local startup café by establishing store policies, defining concrete job expectations, and rectifying manager and employee relations.
- Worked on a team of 10 to efficiently serve customers and assure their 100% satisfaction.

OmniVision Technologies

Singapore

Technology Consultant Intern

July 2013 – August 2013

- Analyzed the company's supply chain management system and created a new system to reduce redundant and detrimental processes which resulted in saving the company \$400,000 annually.

Velos, Inc

Fremont, CA

Developer Intern

June 2012 – July 2012

- Performed software evaluation and program prototyping on content management systems to integrate into internal tools.
- Created a detailed step-by-step user manual to enhance user experience with the new software.

PROJECTS

<https://www.carmichaelyoga.com/>

Carmichael, CA

Carmichael Yoga @ Med + Fit Website

April 2018 – Present

- Developed and designed a complete business website, which brought in 70% more viewership traffic and 50% increase in signups.
- Incorporated a combination of Squarespace software, Mindbody widgets, and Facebook API.

<https://vgadjali.github.io/>
